

# PED 801 DJ Panic Exit Device

## PED 801 DJ

- Standalone Alarm panic Exit Device
- Battery with 2 years of standby time
- Power shortage(voltage less than 7V) alarm by Red LED
- Alarm is shutdown by key
- ANSI cylinder is optional
- Voltage: 9V DC
- Non-handed
- Material
  - Steel Painted (P)
  - Stainless Steel (SS)

### CLASSIFICATION

PED 801 DJP: Steel Painted Half Length

PED 801 DJS: Stainless Steel Half Length

## PED 802 ELR

### Function

- Latch automatic retract by motor, release by solenoid

### Specification

- Motor driving to retract latch/mortise lock latch bolt and deadbolt/ top and bottom bolt
- Operation voltage: 12-24V DC
- Operation current: 500mA
- Monitor latch, touch bar, trim, top and bottom bolt signal to access control system

### CLASSIFICATION

PED 802 ELRP: Steel Painted Half Length

PED 802 ELRS: Stainless Steel Half Length
