MESSAGE

FROM THE FOUNDERS

At **A2 Building Solutions**, we began with a simple yet powerful vision – to redefine the future of architectural hardware and smart living solutions through innovation, quality, and trust.

From the very beginning, our mission has been to create products that combine cutting-edge technology with elegant design, delivering solutions that enhance safety, convenience, and modern lifestyles. Today, A2 stands proudly as a fast-growing global brand serving customers across residential, commercial, hospitality, and institutional sectors.

Innovation remains at the heart of everything we do. Whether it is pioneering smart lock technologies, developing advanced door hardware systems, or creating intelligent access solutions, we continuously challenge ourselves to stay ahead of industry trends and deliver exceptional value to our partners and customers.

Our growth has been built on strong relationships, unwavering commitment to quality, and the passion of our dedicated team. We are deeply grateful to our customers, channel partners, consultants, architects, developers, and employees who continue to believe in our vision and support our journey.

As we move forward, A2 Building Solutions remains committed to investing in research & development, sustainable manufacturing, and world-class customer experiences. We aspire to become a globally respected leader in smart building solutions while continuing to uphold the values of integrity, innovation, and excellence.

Together, we are not just building products – we are building smarter, safer, and more connected spaces for the future.

Warm Regards,
Founders
A2 Building Solutions

COMPANY OVERVIEW

A2 Building Solutions is a fast-growing organization specializing in innovative building hardware, smart living technologies, and integrated architectural solutions. With a strong focus on quality, design, and technology, the company has established itself as a trusted partner for residential, commercial, hospitality, and infrastructure projects across multiple markets.

Our purpose at A2 is to create door access solutions that empower people to live and work more securely, conveniently, and confidently.

We believe that technology should not only enhance safety but also simplify everyday life. By combining innovation with reliability, our goal is to redefine door access solutions for homes, businesses, and industries alike—building a safer, smarter future for everyone.

Driven by a vision to redefine modern living, A2 Building Solutions delivers a comprehensive portfolio that combines functionality, security, and aesthetics. The company is recognized for its advanced smart lock systems, digital access solutions, architectural hardware, and intelligent building products designed to meet the evolving needs of contemporary spaces. By integrating cutting-edge technology with elegant design, A2 enables safer, smarter, and more connected environments.

At the core of A2 Building Solutions is a commitment to innovation and customer satisfaction.

A2 Building Solutions serves a diverse client base including developers, architects, interior designers, contractors, distributors, and channel partners. The company's ability to understand project requirements and provide customized solutions has helped it build long-term relationships and a strong reputation in the industry. From luxury residential developments to large-scale Residential projects, A2's solutions are trusted for their durability, performance, and modern appeal.

With a growing presence across international markets, particularly in the **Middle East, Central Asia, India and South East Asia**, A2 Building Solutions continues to expand its network, product range, and strategic partnerships. The company's business philosophy is built on integrity, innovation, reliability, and continuous improvement. Supported by a dynamic leadership team and experienced professionals, A2 is committed to setting new benchmarks in the smart living and building solutions industry.

As the demand for intelligent and secure building ecosystems continues to rise, A2 Building Solutions remains focused on delivering future-ready products and exceptional service that enhance the way people live, work, and interact with spaces.

VISION

“*To be the most Preferred & Trusted Brand for Door Access solutions.*”

We aspire to create a world where every entry point is seamlessly managed, ensuring safety and peace of mind for all.

MISSION

- To provide high-quality smart locks, architectural hardware, and building solutions that combine technology, safety, and elegance.
- To create value for customers through innovation, reliability, and exceptional service.
- To build strong partnerships with developers, architects, distributors, and global manufacturers.
- To continuously expand across international markets while maintaining world-class standards.
- To enhance everyday living through intelligent, sustainable, and future-ready solutions.

DOOR HARDWARE

INDUSTRY OUTLOOK

The door hardware industry is poised for steady growth, projected to expand at a 5% to 6% CAGR through the next decade. The market is driven by rising urbanization, booming commercial and residential construction, and a strong consumer shift toward smart, connected, and aesthetically pleasing hardware solutions.

KEY GROWTH DRIVERS

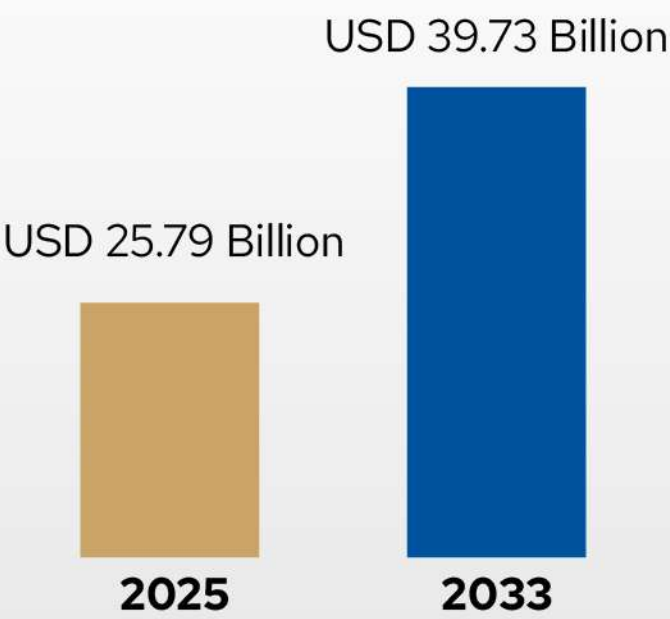

- 1
 - **Smart & Connected Hardware:** Driven by the Internet of Things (IoT), consumers increasingly prefer keyless entry, biometric access, and RFID locks for both convenience and enhanced security.
 - **Real Estate & Renovation Booms:** Rapid infrastructure expansion in emerging economies and post-pandemic home renovation trends are heavily fueling demand for household hardware like hinges, knobs, and pulls.
 - **Aesthetic Customization:** Builders and designers are leaning toward customized, high-end hardware. Finishes like matte black and satin steel are in high demand to match modern interior design themes.
 - **Sustainability Focus:** Consumers and contractors are seeking eco-friendly, energy-efficient, and highly durable materials.

Global Door Hardware Market

Market Size in USD Billion

CAGR : 5.55%

Forecast Period	2026 - 2033
Market Size (Base Year)	USD 25.79 Billion
Market Size (Forecast Year)	USD 39.73 Billion

The global smart door lock market is experiencing rapid expansion, driven by urbanization and the surge in smart home ecosystems. **Valued at approximately USD 4.22 billion, the industry is projected to reach roughly USD 17.75 billion by 2034, growing at a robust Compound Annual Growth Rate (CAGR) of 19.70**

KEY TECHNOLOGICAL TRENDS

- **BIOMETRICS AND AI:** Fingerprint sensors, 3D facial recognition, and AI-based authentication are increasingly standard, replacing traditional keys.
- **MOBILE ECOSYSTEM INTEGRATION:** Locks that interface with Apple Home Key, Google Wallet, and Samsung Wallet are standardizing, giving users broader capabilities to use their phones or smartwatches as keys.
- **ULTRA-WIDEBAND (UWB) TECHNOLOGY:** Industry developments are pushing for UWB integration. This allows for superior, hands-free "approach to unlock" experiences compared to traditional Bluetooth and NFC alone.
- **VIDEO INTEGRATION:** Products equipped with built-in cameras, live view screens, and Wi-Fi video doorbells are gaining massive traction.

INDUSTRY CHALLENGES

- **HIGH INITIAL COSTS:** Premium smart locks with built-in cameras and complex biometric scanners remain a significant investment, hindering mass-market penetration in highly price-sensitive regions.
- **PRIVACY AND SECURITY CONCERNS:** Consumers and commercial entities are increasingly vigilant about data privacy and the threat of digital hacking, pushing manufacturers to build robust, encrypted systems.

OUR VALUES

WE LIVE BY OUR VALUES

INNOVATION

We are committed to pushing the boundaries of technology to deliver state-of-the-art access solutions that meet the evolving needs of our customers. Innovation drives everything we do, from product development to customer service.

SECURITY

Ensuring the safety and protection of our clients is at the heart of our mission. We prioritize robust, reliable solutions that provide unparalleled security for homes, businesses, and beyond.

CUSTOMER-CENTRICITY

Our customers are at the center of our universe. We listen to their needs, value their feedback, and strive to exceed their expectations with every product and service we offer. Our goal is to provide a personalized experience that enhances their security and convenience.

INTEGRITY

We are committed to do the right things and conduct ourselves in a way to maintain Trust & Respect. We build trust through responsible actions and honest relationships.

TRUST

Trust is the foundation of all relationships. We work tirelessly to earn and sustain trust of all our stakeholders, from our suppliers, our employees and our customers.

RESPECT

We value everyone and treat people with dignity and professionalism. Respect our social and physical environment around the world.

COLLABORATION

By prioritizing collaboration, we create an environment of trust, accountability and inclusivity, ultimately enhancing overall performance and success with our stakeholders.

EMPOWERMENT

We empower employees to feel valued, trusted, and motivated. This leads to higher engagement, better business, and a more enriched work culture.

SUSTAINABILITY

We are committed to play our part in creating an engaging place to work and promoting sustainable business practices. We care about our environment, our colleagues, our business partners and the communities we operate in.

WHY A2

Smart Living

A2 Smart products gives you convenience to manage it via A2 Smart Living App

Top Quality, Unique Design, Global Certifications

A2 sets very high standards on offering top quality products with unique designs and International certifications.

Innovating Door Hardware for Safety and Convenience

A2 aims to open a new era in door hardware with its innovative approach that add value to the consumers and make their lives more safe, secure and convenient

Quality, Service, Transparency, Ethics

Quality products, customer service, transparency and business ethics are core foundation of the company

MORE REASONS TO CHOOSE US

We offer convenience

Welcome to a world of convenience with our innovative products, be it Smart Products, our Mechanical Push Pull Lock and other innovative products.

We are always thinking how to make your life more convenient.

We Offer aesthetics

We are constantly innovating to create products that are not only inline with market design trends but futuristic too.

A2 BUILDING SOLUTIONS

PRODUCT PORTFOLIO

A2 Building Solutions offers a comprehensive portfolio of Smart Security, Architectural Hardware, and Smart Living products designed for residential, commercial, hospitality, and institutional applications. The company combines advanced technology, elegant design, and reliable performance to deliver future-ready solutions for modern spaces.

By integrating our solutions with business partners, we not only enhance revenue growth but also elevate daily operations to an AI-powered level. More importantly, our technologies add an extra layer of security, ensuring seamless operations while providing real-time alerts and automated decision-making. Our clients experience operational efficiency and proactive risk mitigation, preventing potential disasters before they occur.

MECHANICAL HARDWARE

UNCOMPROMISING STRENGTH

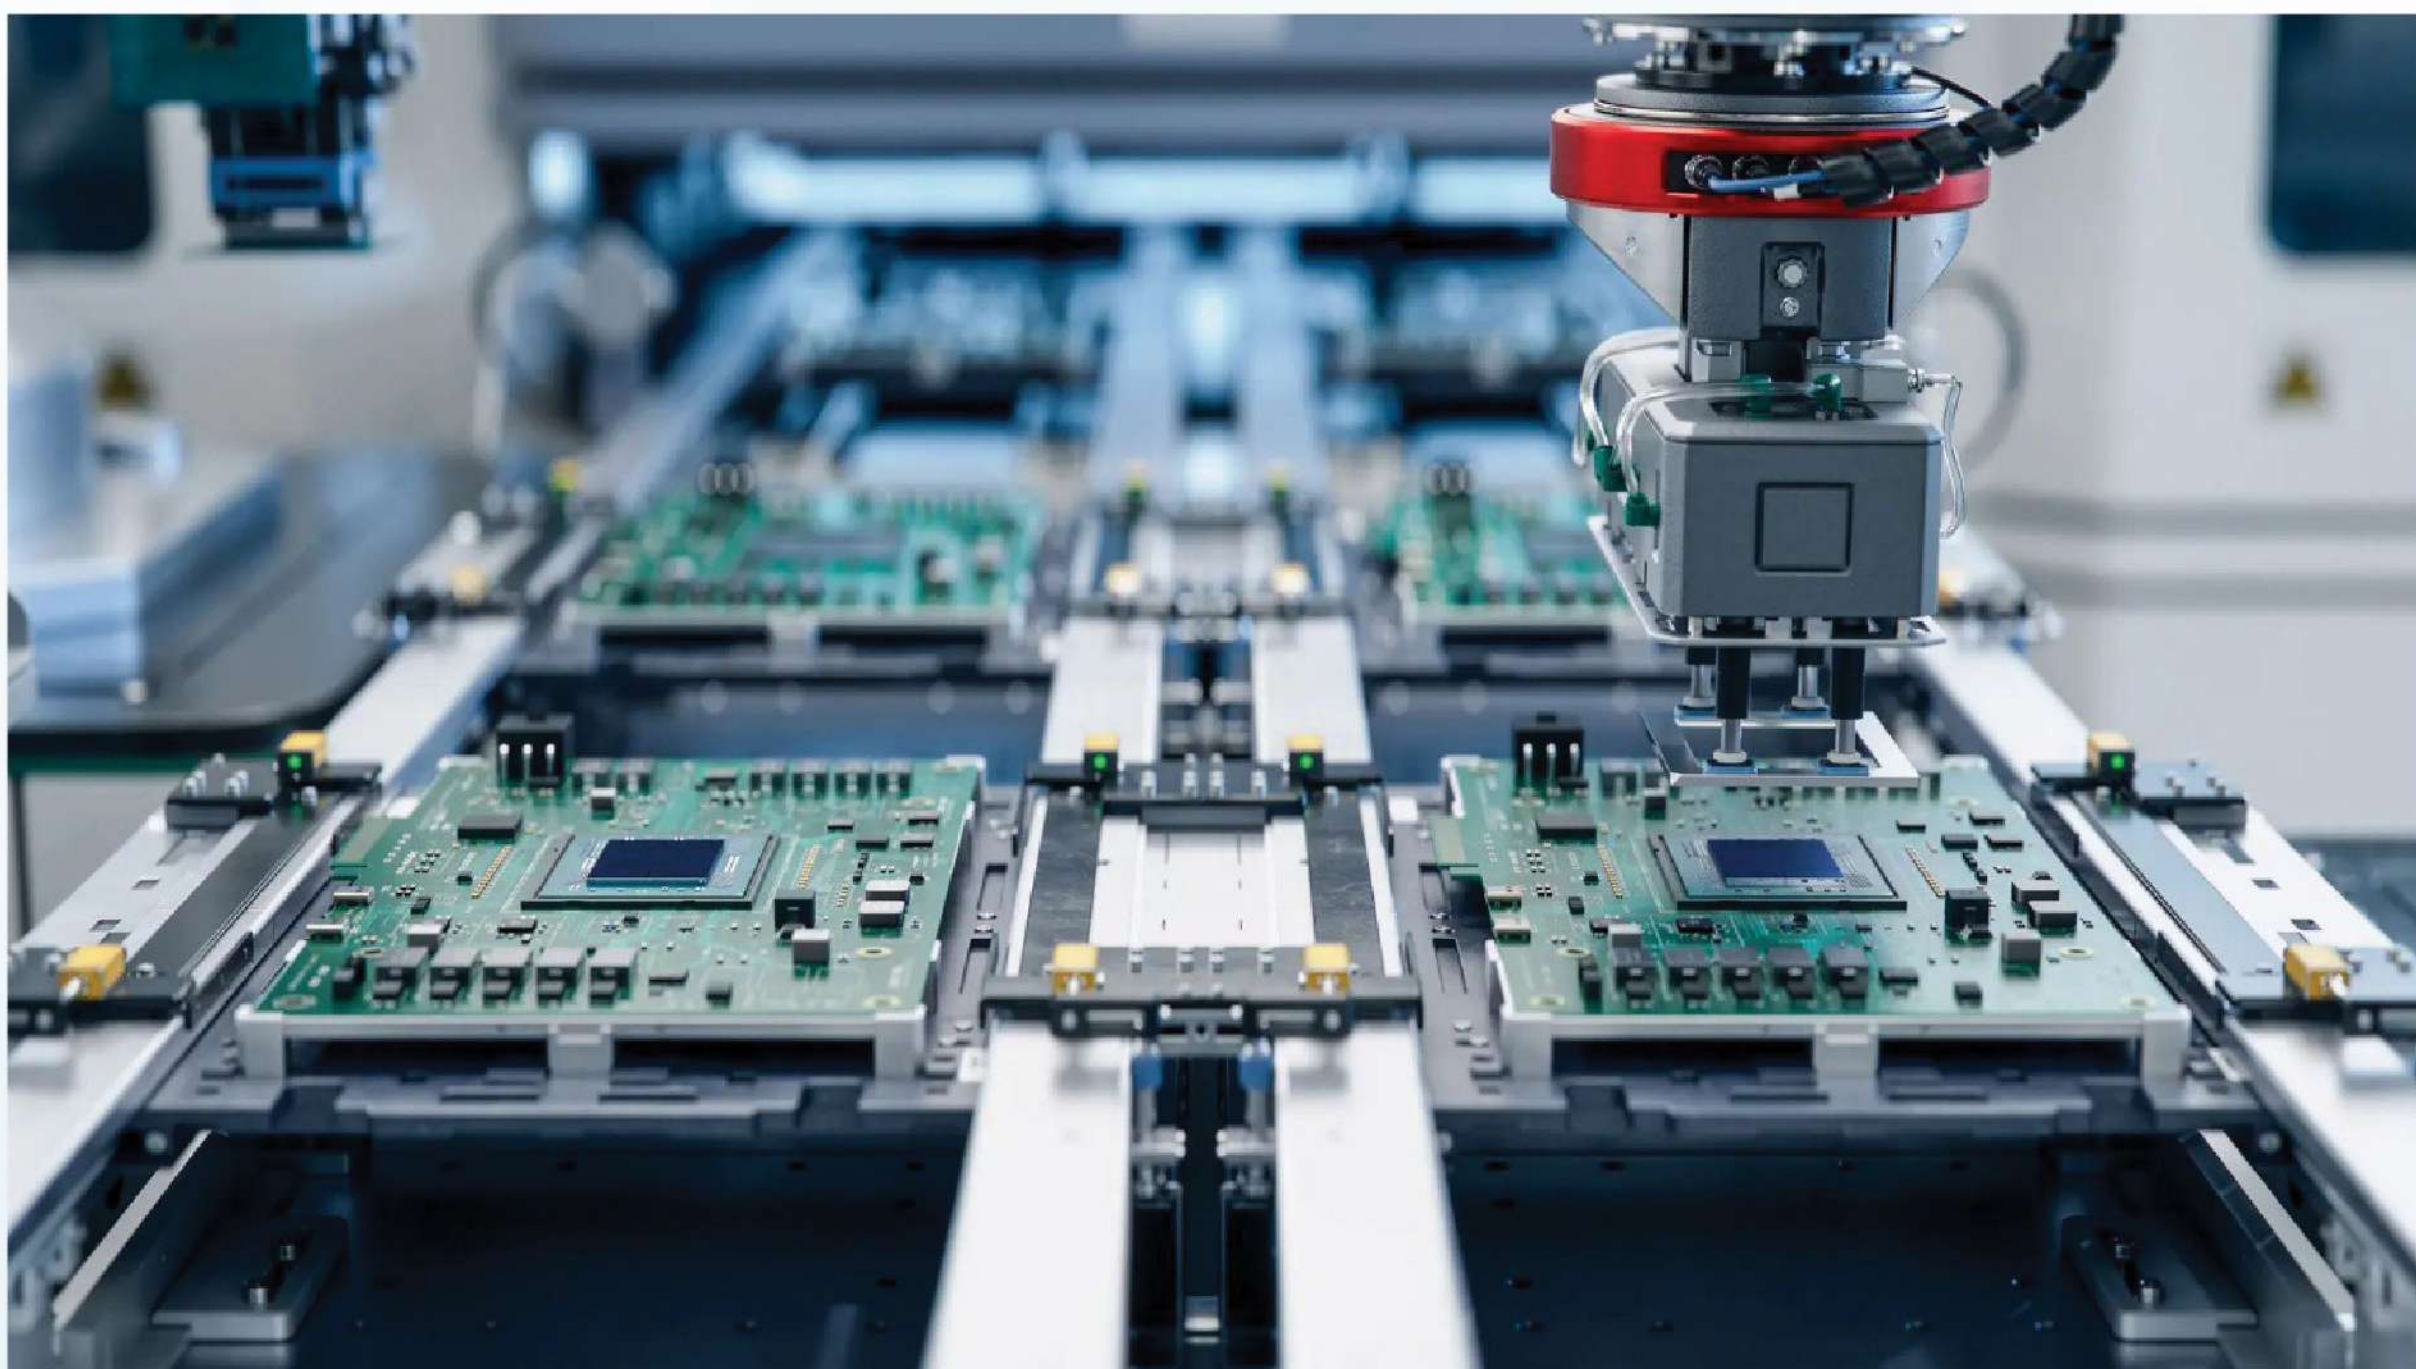

A complete range of premium mechanical locks, door handles, hinges, cylinders, and architectural hardware.

Engineered for strength, precision, and long-lasting performance with elegant aesthetics. Designed to complement modern residential, commercial, and hospitality projects.

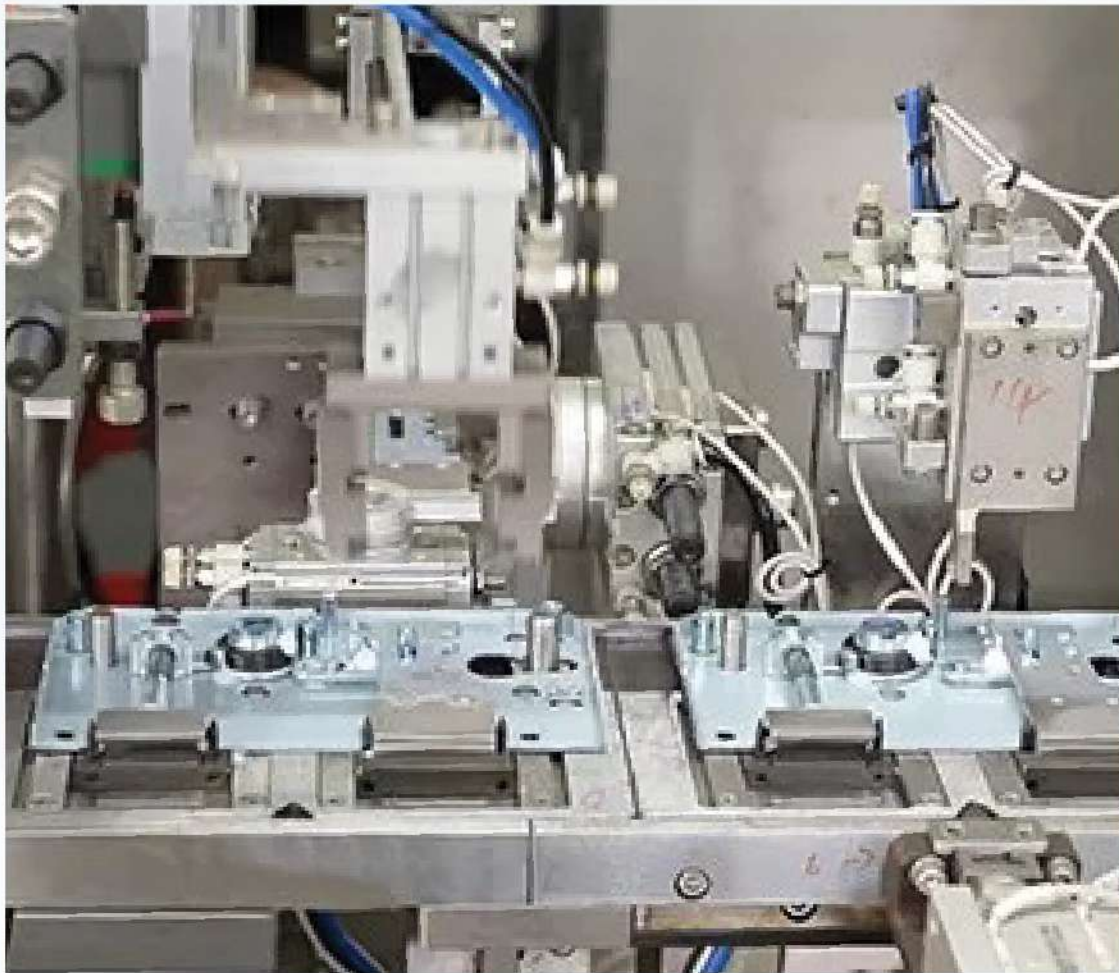

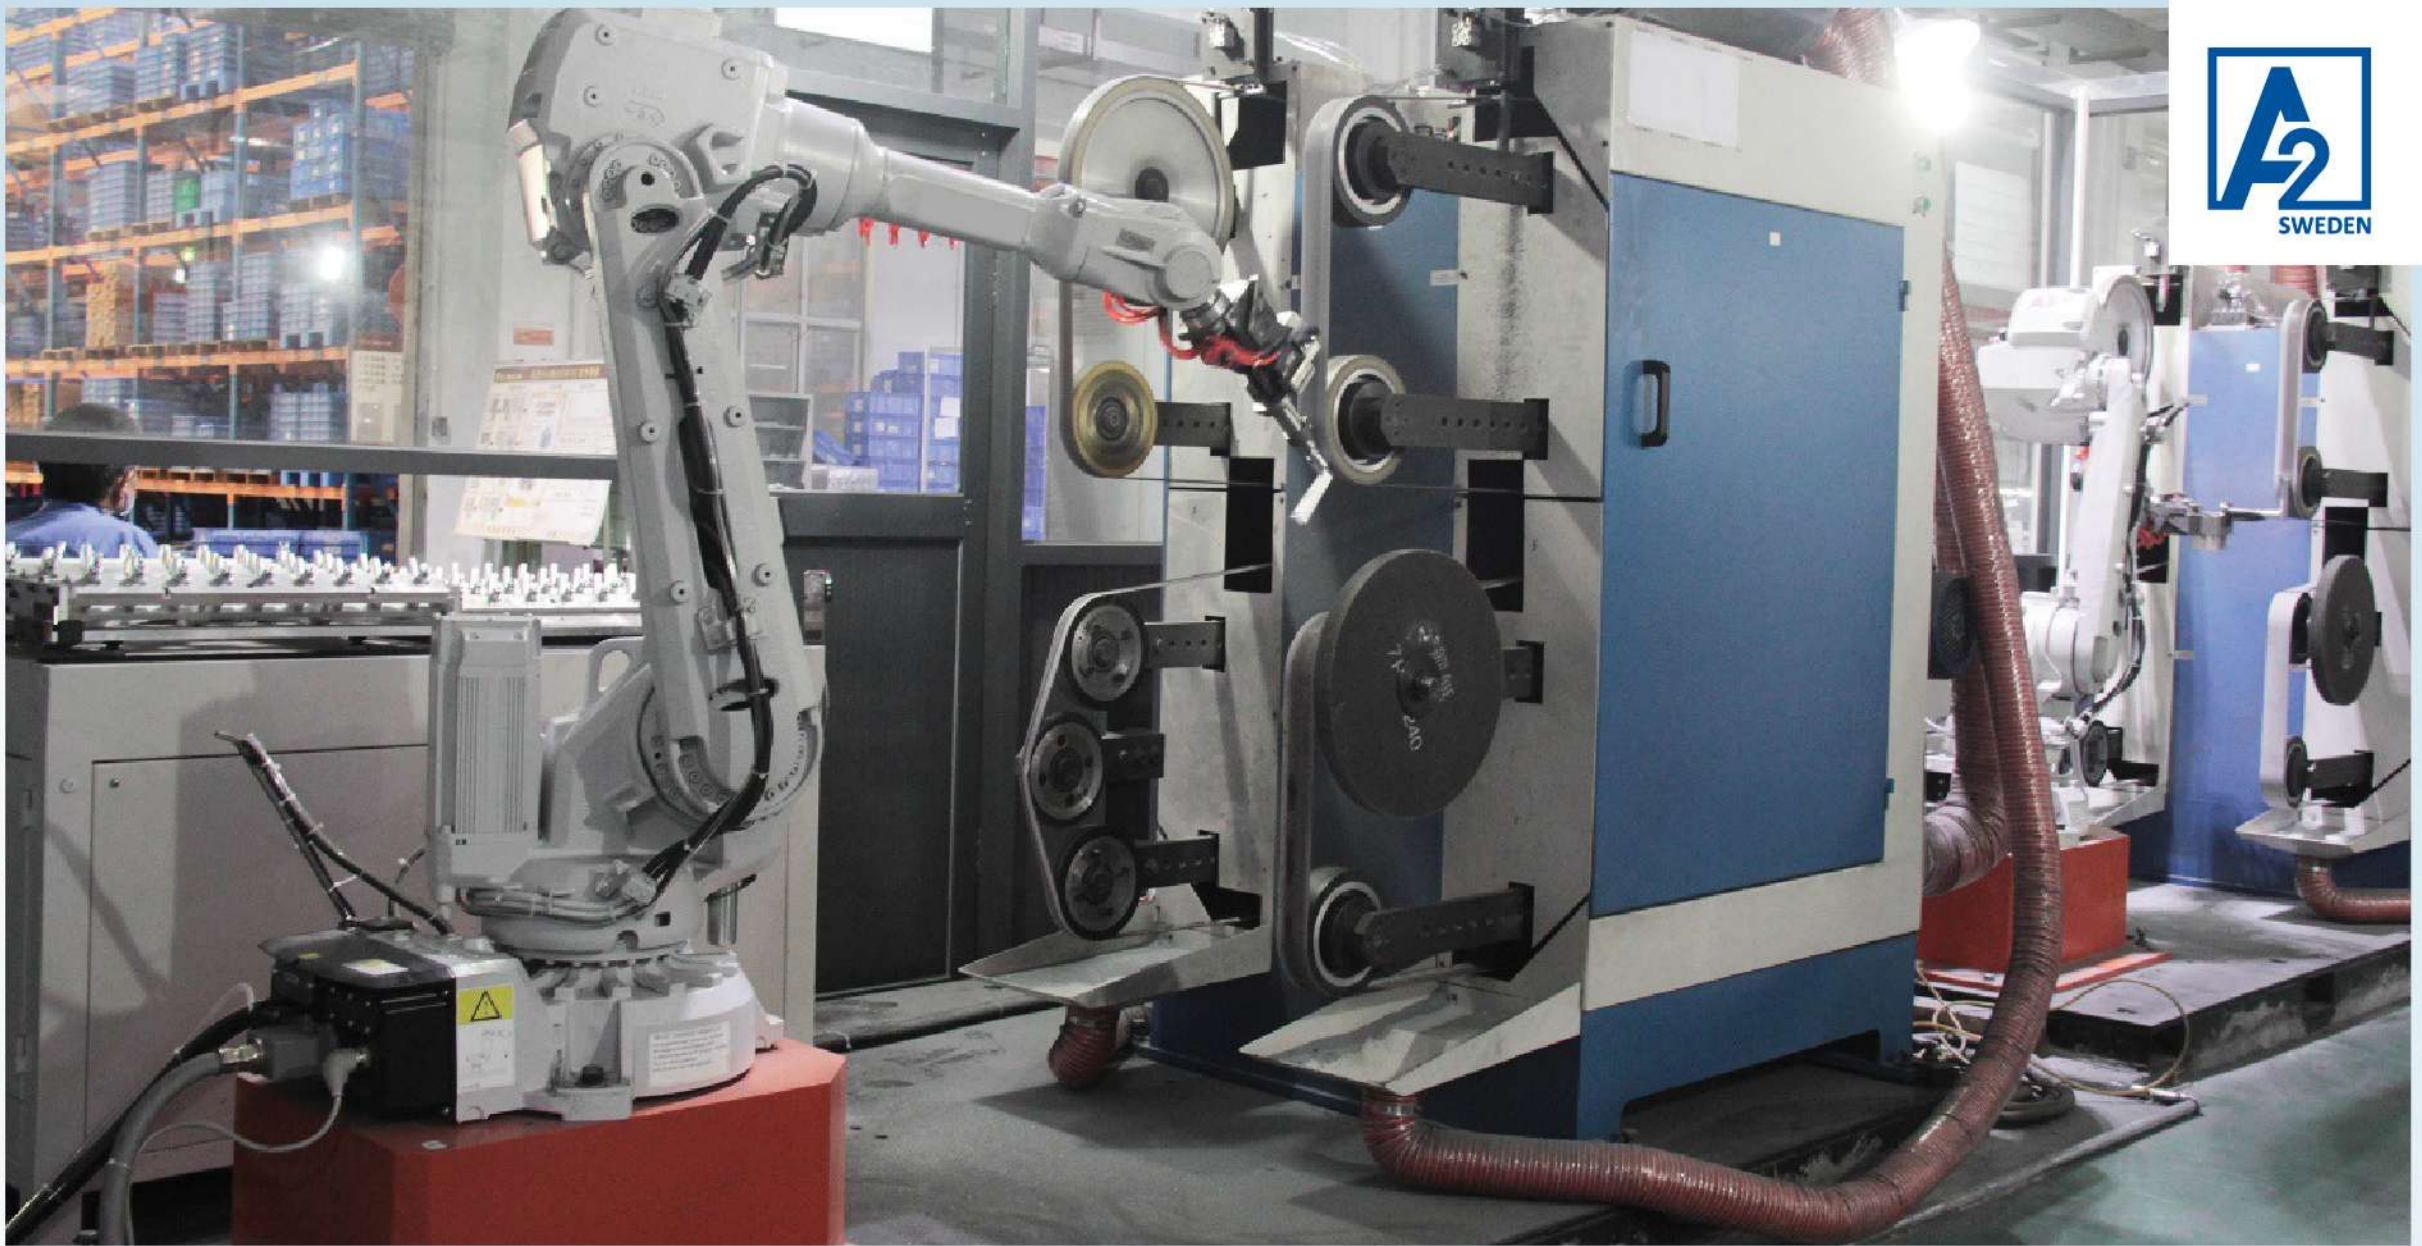

MANUFACTURING CAPABILITIES

At A2 Building Solutions, manufacturing excellence is the foundation of our commitment to innovation, precision, and reliability. Our advanced production ecosystem is designed to deliver world-class architectural hardware and smart access solutions that meet the evolving demands of modern residential, commercial, and hospitality projects across global markets.

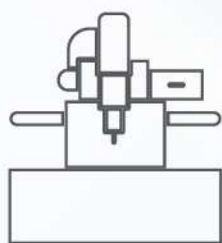

ADVANCED MANUFACTURING & AUTOMATION

A2 operates with a strong focus on technology-driven manufacturing processes that ensure consistency, efficiency, and scalability. Our facilities are equipped with modern CNC machining systems, precision tooling, automated assembly stations, and intelligent production workflows that minimize manual errors while maximizing output quality.

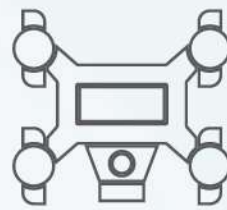

SMART LOCK PRODUCTION & QUALITY

Automation plays a critical role across multiple stages of production – from component manufacturing and surface finishing to smart lock assembly and packaging. Integrated production monitoring systems enable real-time tracking of operations, helping improve productivity, maintain tight tolerances, and ensure on-time delivery. By continuously investing in advanced machinery and process optimization, A2 is able to support both high-volume production and customized project requirements with equal efficiency.

QUALITY MANAGEMENT

TESTING STANDARDS & DURABILITY EXCELLENCE

At A2 Building Solutions, quality is not just inspected—it is engineered into every product. Our commitment to performance, reliability, and long-term durability is supported by rigorous testing standards, advanced validation processes, and continuous quality monitoring across every stage of manufacturing.

COMPREHENSIVE PRODUCT TESTING

Every A2 product undergoes extensive mechanical, electronic, and environmental testing to ensure superior performance under real-world conditions. From smart locks and architectural hardware to advanced access solutions, our testing protocols are designed to meet the demanding requirements of residential, commercial, hospitality, and institutional projects.

Our testing framework is aligned with leading international quality and safety standards, ensuring consistency, reliability, and customer confidence across global markets.

DURABILITY & LIFE CYCLE TESTING

A2 products are engineered for long operational life and tested for extreme usage conditions. Dedicated endurance testing systems simulate years of operation to validate product reliability and mechanical strength.

Key durability tests include:

- **Cycle Testing:** Verification of lock and hardware performance through hundreds of thousands of operating cycles.
 - **Load & Strength Testing:** Testing resistance against impact, pulling force, torsion, and operational stress.
 - **Handle & Mechanism Endurance:** Continuous operation tests to ensure smooth and reliable functionality over extended use.
 - **Door Compatibility Testing:** Validation across multiple door materials, thicknesses, and installation conditions.
- 

ENVIRONMENTAL & RELIABILITY TESTING

To ensure dependable performance in diverse climates and applications, A2 products undergo extensive environmental testing, including:

- **Salt Spray Testing:** Corrosion resistance testing for long-term durability in coastal and humid environments.
- **Temperature & Humidity Testing:** Validation of electronic and mechanical stability under extreme environmental conditions.
- **Surface Finish Testing:** Scratch resistance, coating adhesion, and wear resistance evaluation for premium aesthetics retention.
- **Water & Dust Resistance Testing:** Performance checks for products exposed to challenging external conditions.

SMART LOCK & ELECTRONIC VALIDATION

For smart locking systems and connected products, A2 conducts specialized electronic testing to ensure safety, precision, and seamless user experience.

These include:

- Life cycle testing
- Battery performance and charging validation
- Sensor and biometric accuracy testing
- Software and firmware stability checks
- Connectivity and communication testing
- Emergency access and fail-safe operation validation

QUALITY CONTROL & INSPECTION SYSTEMS

Quality assurance is integrated throughout the production process—from incoming raw material inspection to final product verification. Each production batch is monitored using standardized inspection procedures, precision measurement tools, and functional performance checks.

Our quality teams work closely with engineering and R&D departments to maintain strict consistency, minimize defects, and continuously improve product performance.

COMMITMENT TO GLOBAL STANDARDS

A2 Building Solutions continues to invest in advanced testing infrastructure, automation, and engineering excellence to deliver products that meet international expectations for safety, durability, and innovation.

By combining robust testing standards with continuous product development, A2 ensures every solution delivers lasting performance, premium quality, and trusted reliability for modern architectural and smart living environments.

SUSTAINABILITY & ESG

At A2 Building Solutions, sustainability is not just a responsibility – it is an integral part of how we innovate, manufacture, and deliver smarter living solutions for modern buildings. Our Environmental, Social, and Governance (ESG) approach focuses on creating high-performance products while minimizing environmental impact and promoting long-term sustainable growth.

ENERGY-EFFICIENT MANUFACTURING

A2 continuously invests in energy-efficient manufacturing practices designed to reduce power consumption and improve operational efficiency across production facilities. Advanced automation systems, optimized production layouts, and intelligent process controls help minimize material wastage and energy loss. The company actively adopts modern machinery and lean manufacturing principles to enhance productivity while lowering the overall carbon footprint of operations. Preventive maintenance systems and energy monitoring mechanisms further support efficient resource utilization and sustainable factory performance.

ECO-FRIENDLY PACKAGING

Sustainable packaging is a key focus area for A2. The company is committed to reducing plastic usage and increasing the adoption of recyclable and environmentally responsible packaging materials. Packaging designs are optimized to reduce excess material consumption while ensuring safe transportation and product protection. By utilizing eco-conscious packaging practices, A2 contributes to waste reduction and supports global efforts toward a circular economy.

SUSTAINABLE MATERIALS

A2 prioritizes the use of durable, high-quality, and sustainable materials in product development. The company works closely with trusted suppliers who follow responsible sourcing practices and maintain consistent quality standards. Long-lasting materials not only improve product reliability and lifecycle performance but also reduce replacement frequency and environmental waste. A2 continuously explores innovative material technologies that combine strength, aesthetics, and environmental responsibility.

BUILDING A SMARTER & GREENER FUTURE

A2 Building Solutions believes that sustainable innovation is essential for the future of the building hardware and smart living industry. By combining technology, responsible manufacturing, and environmentally conscious practices, A2 continues to build solutions that support smarter, safer, and greener spaces for future generations.

SMART ENERGY-SAVING FEATURES

Innovation at A2 is driven by the vision of creating intelligent solutions that enhance convenience while promoting energy efficiency. A2 smart locks and advanced access control systems are engineered with low-power consumption technologies, intelligent standby modes, and efficient battery management systems. The company's pioneering innovations – including solar-assisted smart lock charging technologies – demonstrate its commitment to integrating renewable energy concepts into everyday living solutions. These smart features help users reduce energy usage while improving security, comfort, and operational efficiency.

INDUSTRIES

WE SERVE

A2 Building Solutions serves a wide spectrum of industries by delivering advanced architectural hardware, smart locking systems, access control solutions, and integrated building technologies designed for modern infrastructure. With a strong focus on innovation, reliability, aesthetics, and security, A2 partners with developers, architects, consultants, contractors, hospitality groups, and institutions to create smarter and safer spaces across residential, commercial, and industrial environments.

RESIDENTIAL & LUXURY HOUSING

A2 Building Solutions plays a significant role in premium residential developments, luxury villas, gated communities, apartments, and smart homes. Our range of smart locks, digital access systems, door hardware, and automation-ready solutions enhances convenience, safety, and modern living experiences. Designed to complement contemporary architecture, A2 products combine elegant aesthetics with advanced technology for discerning homeowners and developers.

HOSPITALITY & HOTELS

The hospitality industry demands a perfect balance of security, guest convenience, durability, and design. A2 provides smart hospitality locking systems, access management solutions, architectural hardware, and room access technologies tailored for hotels, resorts, serviced apartments, and vacation properties. Our solutions help hospitality brands deliver seamless guest experiences while ensuring operational efficiency and enhanced property security.

COMMERCIAL & CORPORATE SPACES

Modern office buildings and commercial complexes require intelligent security and access management systems. A2 supports corporate offices, business parks, co-working spaces, retail outlets, and mixed-use developments with advanced smart locks, panic hardware, door controls, and integrated access solutions. Our products are engineered to meet the demands of high-traffic environments while maintaining premium design standards.

RETAIL & SHOPPING ENVIRONMENTS

Retail spaces require secure yet customer-friendly access systems that support both aesthetics and functionality. A2 serves malls, showrooms, supermarkets, and branded retail outlets with stylish architectural hardware and intelligent locking solutions that enhance security without compromising customer experience.

INDUSTRIAL & INFRASTRUCTURE PROJECTS

For industrial facilities, warehouses, factories, and infrastructure developments, A2 delivers heavy-duty hardware and security systems engineered for performance and durability. Our solutions are designed to withstand demanding operational environments while maintaining high safety standards and long service life.

REAL ESTATE DEVELOPERS & MEGA PROJECTS

A2 Building Solutions collaborates closely with leading real estate developers, consultants, and project management companies on large-scale residential, commercial, and mixed-use developments. From product selection and customization to technical support and project execution, A2 acts as a trusted partner throughout the project lifecycle.

SMART CITIES & FUTURE-READY BUILDINGS

As buildings become increasingly connected and intelligent, A2 continues to lead with future-ready smart living solutions. Our innovative technologies support smart city initiatives, IoT-enabled access systems, energy-efficient products, and integrated building ecosystems that align with the evolving needs of modern urban infrastructure.

Through innovation, engineering excellence, and customer-centric solutions, A2 Building Solutions continues to serve diverse industries with products that combine security, technology, functionality, and design – helping shape the future of smart and sustainable buildings.

A2 BUILDING SOLUTIONS – RETAIL PRESENCE

A GLOBAL NETWORK. LOCAL COMMITMENT.

INDIA

India serves as one of A2 Building Solutions' largest and most strategic markets. Through a rapidly expanding network of distributors, premium hardware retailers, project partners, and channel associates, A2 has established a strong presence across major metropolitan cities and emerging urban centres.

KAZAKHSTAN

Kazakhstan represents a key market in Central Asia, supporting the region's growing demand for modern residential and commercial building solutions. Through local distributors, A2 supplies premium smart locking systems and architectural hardware that combine international quality with solutions tailored to local market needs.

UNITED ARAB EMIRATES (UAE)

The UAE is one of the Middle East's most advanced construction and luxury real estate markets. A2 has strengthened its presence through strategic retail partnerships serving residential, hospitality and mixed-use developments. Retail partners across the UAE & KSA showcase A2's premium smart lock range and architectural hardware, offering customers advanced security, elegant design, and professional technical support.

VIETNAM

Vietnam's rapidly growing construction industry has created increasing demand for premium architectural hardware and smart access solutions. A2's expanding retail network provides homeowners, developers, and commercial customers with innovative products that combine modern aesthetics, reliable performance, and advanced technology.

PHILIPPINES

The Philippines continues to witness strong growth in smart home adoption. Through trusted distributors and retail partners, A2 offers premium smart locks and architectural hardware supported by professional consultation, installation services, and reliable after-sales support.

MALAYSIA

Malaysia remains an important market within A2's Southeast Asian expansion strategy. Through carefully selected retail partners and distributors, A2 delivers premium architectural hardware and smart access solutions to residential, commercial, and hospitality sectors. Customers appreciate A2's combination of sophisticated design, durability, and advanced technology.

SRI LANKA

Sri Lanka is an emerging market where demand for premium residential and commercial building products continues to grow. A2 has established partnerships with local distributors and hardware retailers to bring internationally designed smart locks and architectural hardware closer to customers.

UZBEKISTAN

Uzbekistan is a rapidly developing market with significant investments in infrastructure, commercial developments, and modern housing. A2 Building Solutions has expanded its presence through local distribution partner, providing access to premium smart locking systems and architectural hardware.

EGYPT

Egypt's expanding infrastructure and real estate sectors continue to create demand for reliable, high-quality building solutions. A2 has established retail partnerships that bring international-quality architectural hardware and smart locking solutions to developers, contractors, architects, and homeowners.
